SAEEC

Southern African Energy Efficiency Convention

"Energy Efficiency Accord at Work"

The SAEEC 2006 features a convention agenda with a seminar, exhibition and courses on a variety of current topics and a comprehensive overview of the "Energy Efficiency Accord at Work".

The Southern African Energy Efficiency Convention (SAEEC) 2006 together with the exhibition targets the complete spectrum of technologies and services of great importance to our delegates in attendance, including:

- Renewable and alternative energy
- Combined heat & power / cogeneration / distributed generation
- Lighting efficiency
- HVAC systems and controls
- Integrated building automation & energy management
- Thermal storage and load management
- Boilers and combustion controls
- Demand Side Management

There is no better way to find the immediate answers you need, and to assess the full scope of potential energy solutions available to you, than by attending the Southern African Energy Efficiency Convention 2006.
