## MINDBENDER

### A gardener's puzzle

Mr Tupper was planting rose bushes. "Are you going to plant them in a row?" asked his daughter.  
"No," said Mr Tupper. "I am going to plant them in 10 rows."  
"But you've only got 9 bushes," said his daughter.  
"Yes," replied her father, "but they will make 10 rows if I plant them correctly."  
Can you figure out how to plant only 9 rose bushes so that they make 10 rows, with 3 bushes in each row?

#### Solution to October 2006 mindbender

##### Exploring the desert

The 9 travelers A, B, C, D, E, F, G, H, J, all go 40 miles together on the 1 gallon in their tanks, when A transfers 1 gallon to each of the other 8, and has 1 gallon left to return home. The 8 travelers go another 40 miles, when B transfers 1 gallon to each of the other 7 and has 2 gallons to go home. This process is repeated until finally the last traveler, J, travels another 40 miles and has 9 gallons to take him home, having traveled 360 miles out and home.

### Winner

Frikkie Dreyer from Automation cc.

### Competition rules:

Answers must be written in block capitals on the coupon provided and entries must be posted, faxed or e-mailed to arrive no later than **10 January 2007**.

The first correct entry drawn will receive the Toptronic Test Instruments: Toptronic Test Instruments, T190CB Circuit Breaker Identifier from HellermannTyton. No correspondence will be entered into and the decision of the organisers will be final.

No staff members of Crown Publications or their families may enter.

## Test Instruments

### T190CB Circuit Breaker Identifier

- Range from 110V to 240Vac (50 or 60Hz)
- Audio signal strength
- Signal strength on LED bar-graph
- Low power consumption
- Lightweight, robust and compact
- Battery OK indicator on LED
- Auto-OFF
- Fused
