

## CONFERENCES AND EXHIBITIONS

### POWER AND ELECTRICITY WORD AFRICA 2009

This conference and exhibition platform is in its 11<sup>th</sup> year and is once again bringing together the power decision makers from all of the 'big five' economies in Africa.

These power players will be looking at a variety of solutions, including generation of electricity; transmission and distribution of electricity; renewable energy solutions; efficiency solutions and fast track power options.

Date: 20-24 April 2009

Venue: Sandton Convention Centre, Johannesburg  
Contact Taryn van Zanten on 011 516 4026/taryn.vanzanten@terrapinn.co.za

### HANNOVER FAIR 2009

Hannover Fair 2009 will maintain its broad international scope and focus on issues of major importance for the future. The fair incorporates Interkama+, Factory Automation, Industrial Building Automation, Motion, Drive and Automation, Digital Factory, Subcontracting, Energy, Wind, Power Plant Technology, ComVac, Surface Technology, MicroTechnology, and finally Research and Technology.

Date: 20-24 April 2009

Venue: Hannover, Germany

- Boilers and Burners Conference, 24-26 November 2009

For further information or to discuss sponsorship opportunities contact Cheryl Reyneke at [cheryl@idc-online.co.za](mailto:cheryl@idc-online.co.za) or 086 692 4368/084 702 0107.

## CONTINUING EDUCATION

### CUSTOMISED LIGHTING TRAINING

Lightworx Lighting Design Bureau offers customised lighting training courses which can be presented at the client's premises. Various topics from lighting scheme design, layout and calculations to energy efficiency in lighting can be prepared and presented to the client's needs.

Courses are developed and presented by Brian Rowell, well-known expert on these topics with almost 40

years experience in the lighting industry. Brian has been instrumental in the lighting design of many projects like the Mount Grace Hotel, Carlton Centre, Gold Reef Casino Group, Village Walk and the Bala-laika Hotel. Brian also presents courses, presentations and seminars for the Illumination Engineering Society of South Africa.

Contact Brian on 083 458 8341 or [lightworx@telkomsa.net](mailto:lightworx@telkomsa.net)

## NEW WEBSITE

### ASSTECH PROCESS ELECTRONICS & INSTRUMENTATION

Randburg-based ASSTech Process Electronics & Instrumentation has upgraded its website allowing easier access to supplier homepages for product searches.

More user-friendly, the site covers a comprehensive listing of ASSTech's available ranges of bus systems, calibrators and simulators, data acquisition, loggers and controllers, digital indicators, electrochemical instrumentation, sensors, systems and telemetry.

Datasheets and technical information from suppliers Wenglor, Jumo, Burster, Inducoder, Captron, Rechner, Sensor Instruments, Astech, HTP Connectivity and Acro Engineering are just a click away. Go to [www.asstech.co.za](http://www.asstech.co.za)
