

## Wits electrical and information engineering open day

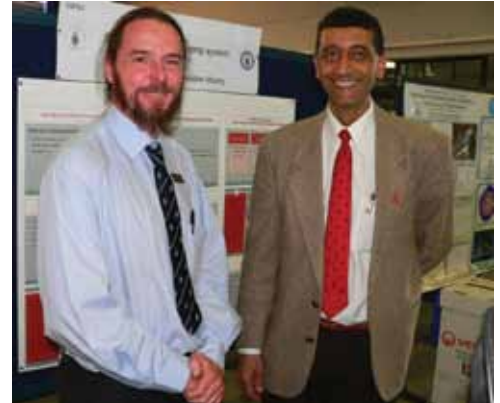

Great enthusiasm ... fascinating projects ... immense initiative ...  
at the very successful Wits electrical and information engineering open day!

Jenny Warwick and Karen Grant (Crown Publications) with Professor Rex van Olst (Electrical and Information Engineering)

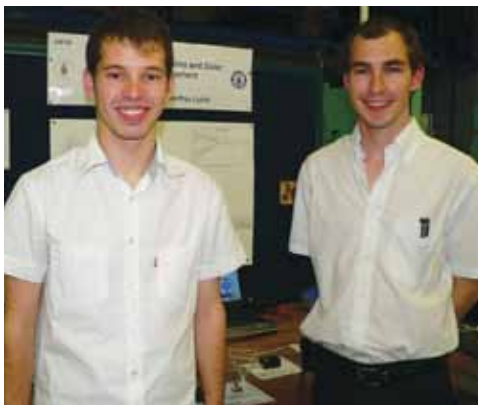

Prof Ian Barker (Chemical and Metallurgical Engineering); Du Toit Grobler (Centenary President of the SAIEE), Professor Ivan Hofsaier (Associate Professor of the School of Electrical and Information Engineering), Prof Willie Cronje (Electrical and Information Engineering).

Dr Ken Nixon (Electrical and Information Engineering) with Professor Yunus Ballim, DVC Academic and Vice Principal of Wits.

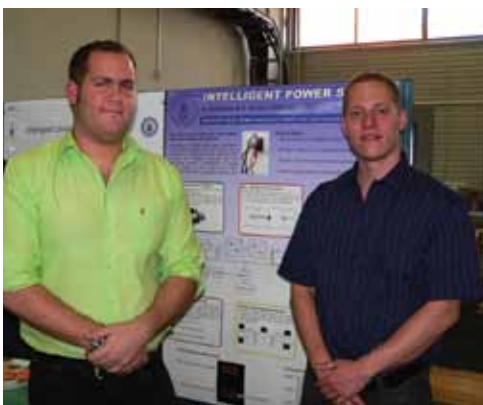

Professor Alan Clark (Assistant Dean, Undergraduate).

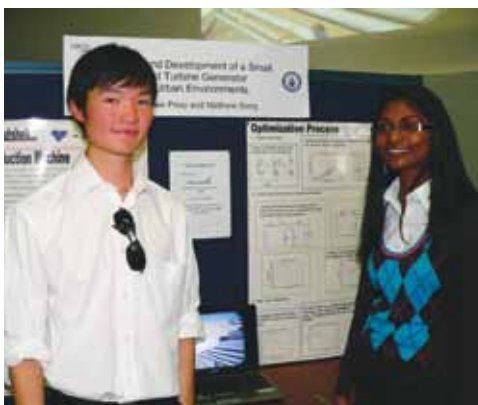

Geoffrey Lydall and Michael Hunter – their project, 'Sensor network for wind and solar energy measurement'.

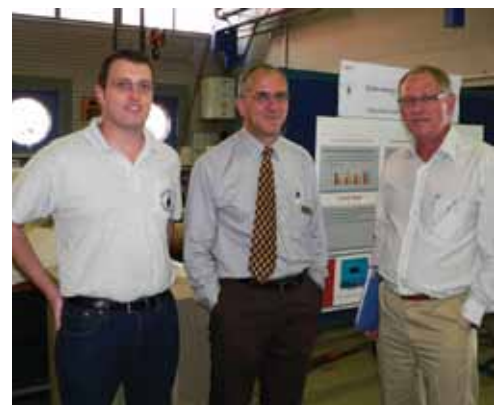

Morgan Molokwane and Rob Shongwe – their project, 'A grid-type inverter for renewable energy systems'.

Anthony Schneider and Rory Murphy – their project, 'Intelligent universal power supply'.

Matthew Song and Nivashnee Pillay – their project, 'Design and development of a small wind turbine generator for urban environments'.

Professor Willie Cronje with Daniel de Canha and Rudi Coetzee (CBI Electric – Medium Voltage).
