

The HellermannTyton

Mindbender?

A fence

In the fence shown, move 14 matches to make 3 squares.

Solution to November 2007 mindbender

Chopping the chocolate

34 breaks is the smallest number possible. Barry starts with one piece of chocolate. Every time he makes a break, he creates one extra piece of chocolate. This is true whether he breaks a small piece into two, or a large rectangle into two parts. Since he ends up with 35 pieces, he must have made 34 breaks.

Winner

No winning entry was submitted.

Competition rules:

Answers must be written in block capitals on the coupon provided and entries must be posted, faxed or e-mailed to arrive no later than **11 February 2008**.

The first correct entry drawn will receive the Toptronic 1 000 V protected general purpose DMM – TBM811 from HellermannTyton. No correspondence will be entered into and the decision of the organisers will be final.

No staff members of Crown Publications or their families may enter.
