

A DAY IN THE LIFE OF A CONSULTING ENGINEER

The South African Association for Consulting Engineers (SAACE) Young Professional's Forum (YPF) fully supports the initiative of the Department of Public Works in promoting the image and profile of the construction sector by giving young learners the opportunity to experience a wide range of exciting opportunities available in today's built environment. The aim of the YPF's Job Shadow Day initiative held during National Construction Week was to attract the attention of learners and encourage them to consider engineering as a career choice. Firms were encouraged to choose a school in their local community and invite pupils to spend a day with them during National Construction Week experiencing "A Day in the Life of a Consulting Engineer". The YPF was inundated with entries from firms with the winning entry coming from Arcus Gibb. A selection of the many submissions received is shown.

Winner of the National Construction Week photo competition, entry by Arcus Gibb.
