## MINDBENDER

### Exploring the desert

Nine travelers, each possessing a motor vehicle, meet on the eastern edge of a desert. They wish to explore the interior, always going due west. Each vehicle can travel 40 miles on the contents of the engine tank, which holds a gallon of fuel, and each can carry nine extra gallon tins of fuel and no more. Unopened tins can alone be transferred from vehicle to vehicle. What is the greatest distance to which they can enter the desert without making any depots for fuel for the return journey?

Solution to August 2006 mindbender

The convivial visitor  
**The Red Lion.**

**Winner**

KR Smith from RAP Products International.

### Competition rules:

Answers must be written in block capitals on the coupon provided and entries must be posted, faxed or e-mailed to arrive no later than **2 November 2006**.

The first correct entry drawn will receive the Toptronic Test Instrument T190CB circuit breaker identifier from Hellermann-Tyton. No correspondence will be entered into and the decision of the organisers will be final.

No staff members of Crown Publications or their families may enter.
