

ENERGY EFFICIENCY AWARENESS ROAD SHOW

The Southern African Association for Energy Efficiency (SAEE) annually presents road shows at various locations in Southern Africa.

The 4th Energy Efficiency Awareness road show was held at the ABSA Stadium, Durban, Kwa-Zulu Natal on 15 August 2008 with 82 delegates in attendance.

The event was opened by Prof. L.J. Grobler, President of the Southern African Association for Energy Efficiency (SAEE). Some very interesting presentations were delivered by the following speakers:

- Mr. Barry Bredenkamp (NEEA): Energy Efficiency in South Africa – Magic or Myth?
- Mr. Corrie Visagie (Eskom): Developing a Power Conservation Programme for South Africa.
- Mr. John Thorby (Eskom): South Africa - The Changing Energy Economy
- Dr. Ian Lane (Energy Cybernetics): How to Remove Barriers to Energy Efficiency
- Mr. Andrea Barausse (Energy Wise): Myth and Reality of Lighting Retrofits (Every Watt Counts)

- Mr. Dave Bekink (National Power): Domestic Load Management the Right Way

Eleven companies displayed the latest products you need to know about to become energy efficient like: lighting, measuring instruments, solar products, energy efficiency educational information, building systems, air conditioning, etc.

The exhibiting companies were:

- Eskom
- Sustainable IT
- National Power
- Townsend International (Pty) Ltd
- Solar Con CC
- Pregare
- WSP Energy Management
- Solar Harvest
- PHD Powerhouse Distributions
- ABB South Africa (Pty) Ltd
- Zest Electric Motors

The SAEE would like to thank Eskom for supporting the event.
