Concentrating solar power – status and application

SANEA lecture Cape Town: 21 October 2009

The extent to which concentrating solar power, also termed solar thermal electric power, has grabbed the attention of people world-wide can be seen in articles such as "The technology that will save humanity" by Joseph Romm and "Can Concentrating Solar Power Outshine Fossil Fuels?" by Sean Sullivan. Barry MacColl

(manager, technology strategy and planning, Eskom) will discuss technologies comprising the family of CSP options, look at developments taking place internationally and discuss Eskom's activities in this regard.
Enquiries: Tel. 011 789 1384 or email sanea@vdw.co.za.

•••
